PROFESSIONAL SUMMARY

Results-driven Frontend Engineer with over 1.6 years of experience specializing in React.js and React Native, with working knowledge of Node.js and Express.js. Proven expertise in delivering real-time features, building high-performance user-centric interfaces. Skilled in debugging and performance optimization solutions with a keen focus on UX and responsive design.

EXPERIENCE

Frontend Engineer - React.js, React Native

April 2025 – Present

[Riggle](#)

Mumbai, MH

- Optimized key front-end modules, including user permissions, orders management, sales target management, order invoice and details used by multiple FMCG manufacturers across India ([link](#)).
- Architected a real-time in-app **chat** feature using WebSockets for field sales teams, replacing external communication tools and increasing sales team productivity by 30%.
- Built an HRMS module for field sales management with real-time **location tracking** (Google Maps API) and automated HR workflows, reducing manual HR effort.
- Integrated **WhatsApp Business APIs** to power targeted marketing campaigns reaching 1000+ retailers.
- Built a hierarchical Bill of Materials (**BOM**) module allowing FMCG manufacturers to define multi-level product structures, with nested components, quantities, and automated cost roll-ups across assemblies.
- Owned application end-to-end as SPOC, coordinating with multiple teams on requirements and on-time releases.
- Optimized rendering in data-heavy modules eliminating unnecessary re-renders. Improved web application load performance by 40% through Webpack bundle optimization, reducing bundle size cause significantly reducing initial load times.

Frontend Engineer Intern

April 2025 – June 2025

[Riggle](#)

Mumbai, MH

- Collaborated with product and design teams to validate business requirements, enhance user experience, and ensure seamless implementation of features.
- Revamped the company's **landing page** with SEO best practices, enhancing its overall appeal.
- Engineered a streamlined **self-onboarding** system across multiple modules, integrating a secure **payment gateway**, reducing manual onboarding intervention.
- Developed and optimized interactive **analytics dashboards** for multiple modules, enabling businesses to access real-time insights, sales summary and make data-driven decisions.

SKILLS

Technical Skills : JavaScript, Python, SQL, HTML5, CSS3, Sass, WebSockets, GitHub Actions, Unit Testing, Debugging

Libraries & Framework : React.js, React Native, Node.js, Express.js, Next.js, Redux, React Query, Tailwind

Tools & platforms : Git, GitHub, Postman, Claude, Cursor, Jira, Figma, Excel

PROJECTS

BatchFlow - Institute Management Platform ([Link](#))

- Built a multi-tenant SaaS platform with role-based access control (RBAC) and tenant-level data isolation on shared backend infrastructure.
- Developed batch management, student enrollment, attendance tracking, fees management and assignment modules, replacing manual record-keeping.

E-commerce Website - "The Unique One" ([Link](#))

- Architected a user-friendly e-commerce platform for organic product sales and created a marketplace for local farmers. Implemented secure payment gateways, product filtering and ensuring secure transactions
- Led the design and development of a user-friendly interface for a platform, resulting in increased customer engagement due to streamlined navigation and enhanced product discovery features.
